

FAIRLINGTON GLEN
RED REFLECTOR CLUB

The plant beds around our homes are common property, maintained by the Glen's landscape contractor. Some residents prefer to maintain the front and side (if an end unit) plant beds themselves. A red reflector in a visible place in your bed alerts the Glen's landscape contractor to leave this area alone.

The resident:

- will install a red reflector (provided) in the bed in a visible location.
- will regularly maintain the bed including:
 - a) pruning shrubs away from the building.
 - b) weeding, feeding, and deadheading the plants.
 - c) watering.
 - d) cleanup of annuals and perennials spring and fall.
- will avoid planting anything invasive including, but not limited to, English ivy.
- understands that the Glen Homeowners' Association reserves the right to assume responsibility for improperly maintained beds.

The Glen's landscape contractor:

- will mulch and edge all plant beds, including those with a red reflector.

This form is to be completed each year and submitted by March 31st to the Glen landscape email glenlandscaping@gmail.com.
